

Controls and Compliance Start Time

City: DUNKIRK

Date: 30/06/2024

Time: 8:00 a.m.

The test is of category 3 of the RSO

The skipper or one of the team members must remain present in case of random control by a gauge.

The tank must be full, and the fuel oil must be visible to the naked eye from the deck through the filler cap.

After this time, only the following equipment may be unloaded and must be unloaded if it has not been weighed:

- The cover of GV and J2
- Fenders, except 1 modular foil fender and 1 modular fender
- The mooring rope

After this time, only the following equipment may be shipped:

- The solid food of the day adapted to the needs of the crew for the 1st day of race
- A USB key or a paper file of negligible weight.

After this hour, only the skipper, the team members and the preparer are entitled to have access to the boat unless exceptionally authorized by the Race Management or the Technical Committee.

Reminder:

Wearing the vest is mandatory from the pontoon departure until the pontoon return. The vest must be attached and the cutal put on.
