

KEY WORDS FROM THE SAILORS

Main objective:

"Dive into offshore sailing"
"Level up your skills, get some real experience, and push yourself further"
"Meet new crews, make friends, and learn together along the way"
"Train young sailors to compete and excel"
"It's all about having fun, making progress, battling it out on the water, and laughing on land"

General impression of the course and the races:

"Super intense, that's exactly what we came for!"
"Different types of challenges and seriously intense-just what we needed!"
"The format? Spot on!"

"The first word that comes to mind is intense, because the races followed one another at a sustained, regular, daily pace, and were always fiercely contested." **Sophie FAGUET**

"I really liked the format of this year's Tour. We took a gamble on training, taking on board young Réunionese just starting out in their sporting careers, and the number of races was just right for that."
Aurélien BARTHELEMY
